

REMARKS/ARGUMENTS

Applicant has amended the application to provide a proper disclosure and claims, in accordance with accepted USPTO and patent guidelines. Reference numerals have been added throughout, and detailed descriptions of the drawings have been provided. In addition, embodiments which are inferable from the original specification have been added. Applicant submits that no new matter has been added by way of these amendments.

Support for each of the paragraphs provided in the amended specification and for the new drawings is provided below. Due to the number of changes, a clean version of the application has been included for the Examiner's convenience at Appendix B.
